2019 AFM Statewide Mutual Risk Management Scholarship

The 2019 Scholarship Winner will visit the FM Global SimZone

AFM is offering the opportunity of a lifetime for a Statewide Mutual member to learn more about property loss prevention, and see FM Global's approach to loss prevention and the research behind it, at the FM Global Research Campus in Boston, USA.

To enter the scholarship competition, you will need to submit a short essay (and/or video presentation) that explains what your council is doing to protect your councils property from a peril. The best submission will become the winner!

We want to learn about the projects or plans council has proposed or initiated.

NOTE: More specific guidance is provided in within the document

The Challenge

For a business to be resilient it needs to eliminate vulnerabilities and to ensure it continues to be operational. A major fire, wind or flood event will disrupt normal council operations. Eliminating or reducing the risk of a hazard is the best method for ensuring a council remains operational through and after the loss.

Member of the FM Global Group

2019 AFM Statewide Mutual Risk Management Scholarship

We would like to learn how your council has protected its buildings from a loss. Write a short essay, or video presentation, that explains what your council is doing.

Submissions should meet the following requirements

1. Submission should be a short (max. 500 words), alternatively a video addressing the topic, or a video-taped presentation would be acceptable. Video presentations should be no longer than 5 minutes duration.
2. Full contact details must be provided, including applicants name, organisation details, phone and email contact details.
3. The scholarship is open to all Statewide Council employees.
4. Multiple entries may be submitted from a single council.
5. Each applicant must consent to their details being used for marketing purposes directly related to the scholarship.

Deadline for entries is close of business, 9th August, 2019 – one scholarship will be awarded.

Email entries to antony.cavka@affiliatedfm.com

Scholarship Prize Details

The Scholarship winner will be offered the chance to attend the AFM Loss Prevention Training course which is held at the FM Global SimZone in Massachusetts USA. The training course will be held in 2019/2020 (exact date to be advised). The prize will include return premium economy airfares, accommodation and travel expenses. The winning applicant will be flown from their nearest major airport to the USA including transfers and accommodation.

The winning applicant will be selected by a panel of AFM loss prevention personnel.

Applicants must be available to travel, hold a valid passport and be eligible for entry into the USA to participate.
